# ATMOSPHERIC ENVIRONMENT

## SCOPE

The main aim of *Atmospheric Environment* is to provide a scientific understanding of the consequences of human-induced perturbations on the composition of the Earth's atmosphere. Areas covered include air pollution research and its applications, air quality and its effects, dispersion and transport of air pollutants, deposition, biosphere-atmosphere exchange, global atmospheric chemistry, and some aspects of radiation and climate. Novel results based on experiments, theory and modelling of the atmosphere, extending from local to global scales, are included. Papers dealing with the scientific, administrative, economic and political aspects of these problems are also encouraged. *Atmospheric Environment* publishes original research and review papers, special issues and supplements, and other invited and contributed columns:

**New Directions** A monthly column reporting on late-breaking, controversial, or speculative issues in all aspects of the atmospheric sciences. Editor: Dr W. Sturges, *Norwich*, UK (E-mail: [new.directions@uea.ac.uk](mailto:new.directions@uea.ac.uk)).

**Fast Track Papers** A route for rapid publication of manuscripts that are especially urgent.

**Short Communications and Technical Notes** Papers that cover topics which may be simpler in structure or of more limited interest, sometimes reporting unusual observations.

**Atmospheric Environment International** These papers place air pollution research in a regional context, and can be identified by a geographical place name in the title. They are classified according to the following regions: Africa & Middle East, Asia, Australasia, Polar Regions, Central & South America, North America, Europe. The papers are no longer collected together in Special Issues, but can be located by searching the on-line version of the journal on *Science Direct*.

Forty issues of *Atmospheric Environment* are published annually.

Authors are referred to the Preparation of Papers guidelines, printed in every issue, for advice concerning the preparation of their manuscript. Submission of papers on disk is encouraged and the rapid publication of select and timely papers is also possible.

Contributions can be made to either of the Executive Editors listed below.

**PROF. P. BRIMBLECOMBE** *School of Environmental Sciences, University of East Anglia, Norwich NR4 7TJ, U.K.* e-mail: [atmos\\_env@uea.ac.uk](mailto:atmos_env@uea.ac.uk). For submission instructions visit: <http://www.uea.ac.uk/~e044/ae.htm>

**DR H. B. SINGH** *Earth Science Division, MS 245-5, NASA Ames Research Center, Moffett Field, CA 94035, U.S.A.* e-mail: [Hanwant.B.Singh@nasa.gov](mailto:Hanwant.B.Singh@nasa.gov) or [editor@AEnorthamerica.com](mailto:editor@AEnorthamerica.com). For submission instructions visit: <http://geo.arc.nasa.gov/sgg/singh/aesubmissions.html>

**Author enquiries:** For enquiries relating to the submission of articles (including electronic submission where available) please visit Elsevier's Author Gateway at <http://authors.elsevier.com>. The Author Gateway also provides the facility to track accepted articles and set up e-mail alerts to inform you of when an article's status has changed, as well as detailed artwork guidelines, copyright information, frequently asked questions and more.

Contact details for questions arising after acceptance of an article, especially those relating to proofs, are provided after registration of an article for publication.

**Published three times monthly with extra issues in March, June, September and December**

**Publication information:** *Atmospheric Environment* (ISSN 1352-2310). For 2003, Volume 37 is scheduled for publication. Subscription prices are available upon request from the Publisher or from the Regional Sales Office nearest you or from this journal's website (<http://www.elsevier.com/locate/atmosenv>). Further information is available on this journal and other Elsevier products through Elsevier's website: (<http://www.elsevier.com>). Subscriptions are accepted on a prepaid basis only and are entered on a calendar year basis. Issues are sent by standard mail (surface within Europe, air delivery outside Europe). Priority rates are available upon request. Claims for missing issues should be made within six months of the date of dispatch.
